Engine V6 3.0L

The Ferrari 296 GTB is a next generation evolution in Ferrari's mid-engine lineage, blending classic proportions with hybrid performance. Powered by a 3.0l twin-turbocharged V6 engine paired with an electric motor, the 296 GTB produces a combined output of 830 horsepower. Inside the cabin is noticeably modern with a digital instrument cluster, driver-oriented controls, and a minimalist look.
